Globalization or Empire?

Jan Nederveen Pieterse, University of Illinois

In this smart and concise examination of the trends driving contemporary globalization, Jan Nederveen Pieterse argues that the United States' pursuit of global primacy is based upon a complex melding of neoliberal economics and hegemonic pursuits.

Do alternate capitalisms offer viable alternatives to the American way?

Globalization or Empire? looks at globalization with acuity and thoughtfulness and uncovers its underlying dramas.

Jan Nederveen Pieterse is professor of sociology at the University of Illinois, Urbana-Champaign, co-editor of the *Review of International Political Economy* and author of *Globalization and Culture* and *Empire and Emancipation*.
